PUBLIC HEALTHCARE

01 General Information of the Hungarian Healthcare System

Hungary has a tax-funded universal health care system, which allows you to use **state-funded healthcare** services free of charge if you have a **Hungarian health insurance number** (TAJ number) and a **Hungarian healthcare card** (TAJ card).

International citizens working or studying in Hungary are covered under the National Health Insurance Fund (NEAK) in different ways:

Employees

If you work in Hungary, your employer automatically deducts health insurance contributions from your salary, granting you access to public healthcare services.

EU Citizens

You can use your European Health Insurance Card (EHIC) to access state healthcare during a short-term stay.

Students

If you are studying in Hungary under an international agreement or scholarship, you may be entitled to free medical care. Otherwise, you can sign an agreement with NEAK to receive coverage for 30% of the local minimum wage.

Non-EU Citizens

If you do not qualify for free healthcare, you must purchase private health insurance or register with NEAK for coverage.

02.3

PUBLIC HEALTHCARE

European Health Insurance Card (EHIC)

The European Health Insurance Card (EHIC) enables individuals with health insurance in an EU nation to access necessary medical care across EU member states and in Iceland, Liechtenstein, Norway, and Switzerland. It is issued free of charge by the national health insurance provider and covers medically necessary treatment under the same conditions as residents. However, it is essential to note that the EHIC is not a substitute for travel insurance, as it does not cover private healthcare or repatriation costs.

Citizens from non-EU or non-EEA Countries

Citizens from non-EU or non-EEA countries should find out whether there is a reciprocal arrangement for free medical care between their country and Hungary. These agreements allow citizens to access medical care at reduced or no cost in partner countries.

Relevant information is available on the websites of the respective countries' embassies.

Useful tips

International citizens and tourists in Hungary can receive first aid and emergency treatment without insurance or a TAJ number and TAJ card.

Why should I go to a GP first if I am ill?

General practitioners (háziorvos) are the first point of contact for accessing health care services in Hungary. They provide referrals to specialists and hospitals. Therefore, it is essential to **register with a GP when you arrive in Hungary.**

How can I see a specialist?

If you would like to consult a specialist (szakorvos), you need a referral from a GP. Once you have a referral, you can make an appointment with the specialist directly. However, you do not need a referral from a GP in case you want to see an ophthalmologist, an otolaryngologist, a dentist, a dermatologist, a gynaecologist, a surgeon or a traumatologist.

What should I do in case of an emergency?

In **non-life-threatening or emergency cases**, the GP on-call service should be contacted by calling **1830** outside the general practitioners' visiting hours. **Those who need emergency help should call 112.**

Emergency care is free to all Hungarians and international citizens, regardless of nationality.

Where should I take my child if he/she is sick?

If the child is sick (not in case of emergency), you should consult a paediatrician. **On-call paediatric services** are available from 6 p.m. on weekdays until 8 a.m. the next morning and 24 hours a day on public holidays. The **National Ambulance Service** provides on-call paediatric care with the **personal assistance of paediatricians in the Pediatric Clinic of the Clinical Centre of the University of Debrecen** (Debrecen, Nagyterdei körút 98). **Central on-call telephone number: 1830**
